6:00 am—4:30 pm

Lamb Canyon Landfill
16411 Lamb Canyon
Beaumont, CA

Operating Hours: Monday—Saturday
8:00 am—4:30 pm

Waste Management of the Inland Empire

The City of Murrieta contracts with Waste Management of Inland Empire for trash and recycling services. Waste Management provides the most cost effective method of trash collection with state-of-the-art recycling and green waste programs. The use of automated collection is an efficient process for collection of residential waste and recyclables. Each residence is provided with three separate containers for waste separation.

Residential Containers

96-gallon burgundy container = trash
64-gallon gray container = commingled recyclables
64-gallon green container = green waste/organic yard materials

Waste Management
of the Inland Empire

Construction & Demolition Debris Containers

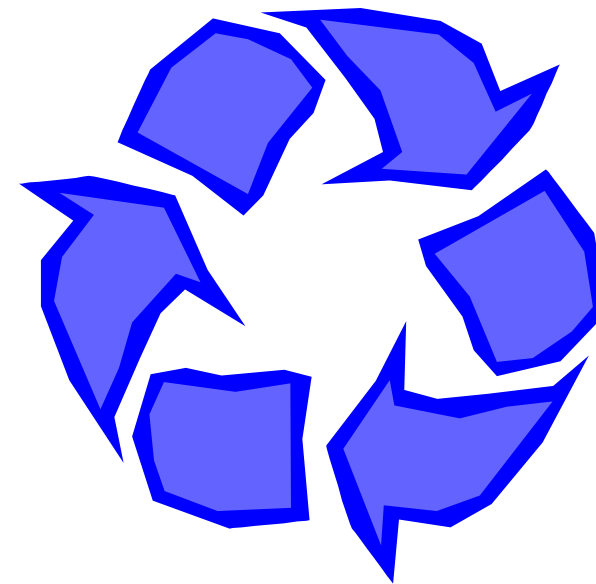

Waste Management has a wide variety of roll-offs, bins and containers to assist contractors and developers with recycling and construction and demolition debris container needs. Using Waste Management's services not only helps the environment by diverting recycling materials from area landfills, but also assists the City in meeting its state mandated (AB939) diversion goal. Waste Management has the connections to find the proper disposal or reconditioning site for most construction and demolition waste - and as the City's [franchise](#) hauler - It is understood that Waste Management should service your needs.

Contact Waste Management for your disposal and recycling needs today!

Why Recycle?

~State Mandated Assembly Bill 939 requires all cities & counties in the State of California to divert 50% of their waste stream from landfills by the year 2000.

~The Earth's resources are limited. Recycling helps conserve energy and prolong the life of our precious natural resources.

~Landfill space is quickly diminishing and new landfill locations are difficult to establish.
