## Approved Consultant List

The following consultants are being placed on this list as a convenience to our customer and have had their qualifications evaluated and approved by Murrieta Fire & Rescue. Murrieta Fire & Rescue does not recommend any consultant over the other. It is important for the customer to contact the consultants and evaluate their credentials for the specific needs of their project.

Other consultants may be used that are not on this list, but they must first be evaluated and approved by the Fire Marshal, prior to hiring, to ensure they meet the requirements for technical assistance. If the consultant selected by the customer is not on this approved list, you must submit a resume and curriculum vitae, along with degrees and certifications, for evaluation and approval, pursuant to the California Fire Code Chapter 1, Section 104.7.2.

Approved consultants may be placed on this convenience list by submitting a letter of request to Murrieta Fire & Rescue, to the attention of the Fire Marshal, at any time. However, the convenience list will only be updated twice each year on January 1 and July 1.
