Release Schedule

The data in this file are scheduled for release starting in March 2014 and ending in June 2016.

Key Table Information

The data in this file come from separate 2012 Economic Census of the U.S., Economic Census of Island Areas, and Nonemployer Statistics data files released on a flow basis from March 2014 through June 2016. As such, these data are subject to change and will be replaced when updated data are added from more recent data files. Users should be aware that during the release of this consolidated file, data at more detailed NAICS and geographic levels may not add to higher-level totals. However, at the completion of the economic census (once all the component files have been released), the detailed data in this file will add to these totals.

Universe

The universe of this file is all operating establishments with one or more paid employees (employers) as well as all operating establishments with no paid employees (nonemployers). This universe includes all establishments classified in the North American Industry Classification System (NAICS) Codes 21 through 813990.

Geographic Coverage

The data are shown for employer establishments at the US, State, Combined Statistical Area, Metropolitan and Micropolitan Statistical Area, Metropolitan Division, Consolidated City, County (and equivalent), and Economic Place (and equivalent; incorporated and unincorporated) levels for the U.S. and the Island Areas. Data for nonemployer establishments are shown for the U.S. for all levels except Economic Places and only for Puerto Rico for the Island Areas.

Industry Coverage

The data are shown at the 2- through 6-digit NAICS code levels for all economic census sectors and at the 7- and 8-digit NAICS code levels for selected economic census sectors.
