OWNER CERTIFICATION

I CERTIFY UNDER THE PENALTY OF THE LAWS OF THE STATE OF CALIFORNIA THAT I AM THE PROPERTY OWNER OF THE PROPERTY THAT IS THE SUBJECT MATTER OF THIS APPLICATION AND I AM AUTHORIZING AND DO HEREBY CONSENT TO THE FILING OF THIS APPLICATION AND ACKNOWLEDGE THAT THE FINAL APPROVAL BY THE CITY OF MURRIETA, IF ANY, MAY RESULT IN RESTRICTIONS, LIMITATIONS AND CONSTRUCTION OBLIGATIONS BEING IMPOSED ON THIS REAL PROPERTY.

All signatures must be originals (“wet-signed”). Photocopies of signatures are **not** acceptable.

PRINTED NAME OF OWNER

SIGNATURE OF OWNER

PRINTED NAME OF OWNER

SIGNATURE OF OWNER

Written authorization from the legal property owner is required. An authorized agent for the owner must attach a notarized letter of authorization from the legal property owner.

If the property is owned by more than one person, attach a separate page that references the application case number and lists the names, mailing addresses, and phone numbers of all persons having an interest in the real property or properties involved in this application.

See attached sheet(s) for other property owner’s signatures.

FILING INSTRUCTIONS FOR SUBDIVISION APPLICATION

The following instructions are intended to provide the necessary information and procedures to facilitate the processing of a Subdivision application. Your cooperation with these instructions will insure that your application can be processed in the most expeditious manner possible.

THE SUBDIVISION FILING PACKAGE MUST CONSIST OF THE FOLLOWING:

PLEASE NOTE: If you are applying for an amendment /revision of a map which proposes no revisions to the conceptual grading or # of lots, you may not need to provide a revised grading plan. Please contact the Planning Division to verify submittal requirements.

INITIAL SUBMITTAL:

1. One complete and signed application form.
2. The appropriate fee for the application type or types. To view the Fee Schedule, go to:
<https://www.murrietaca.gov/departments/planning/apps.asp>
Note: Additional fees may be assessed as a result of project review.
3. Complete the "Environmental Setting" section of this application.
4. Other information including technical studies/reports such as biological surveys and delineations studies and/or a cultural resource assessment will be required as determined by the completed "Environmental Setting" section of this application.
5. One 8 ½" x 11" photocopy of a U.S. Geological Survey (USGS) 7.5' Series Quadrangle Map at a 1:24,000 scale delineating the site's boundaries (Note: each photocopy must not have been enlarged or reduced, have a North arrow, scale, quadrangle name, and Section/Township/Range location of the site.) The site must be clearly identified on the map.

For easy access to U.S.G.S. maps, go to: <http://www.usgs.gov/> or <http://www.terraserver.com/?tid=151>.

6. \$60.00 processing fee payable to "UC Regents" for cultural resources review.
7. Two (2) copies of the Preliminary Title Report (must be prepared within the last 6 months).
8. One copy of the current legal description for each property involved as recorded in the Office of the County Recorder. A copy of a grant deed of each property involved will suffice.
9. If any of the properties involved do not abut a public street, a copy of appropriate documentation of legal access (e.g. recorded easement) for said property shall be provided.
10. Sixteen (16) full size (24"x36") copies of the proposed map. The map must also include the information described in the applicable application type column of the Subdivision Matrix.

All exhibits must be folded no larger than 8 ½" x 11".

11. If you are applying for a Vesting map, a Development Plan application along with all of the appropriate submittal requirements is due at the time of submittal.
12. Water and Sewer will serve letter(s).

13. Complete the "Water Quality Management Plan (WQMP) Information" section of this application.
14. If determined by the completed WQMP Checklist for either the Santa Ana River or Santa Margarita River region to be required, two (2) completed copies of the Project Specific Preliminary WQMP and the "Summary of Project-Specific Water Quality Management Plan Requirements" section of this application.
15. Complete the "Hazardous Waste Disclosure Statement" section of this application.
16. One geological report or waiver thereof if the land division lies within an Alquist Priolo Earthquake Fault Zone.
17. Request for waiver of final map, when applicable (Parcel Maps only).
18. Three (3) copies of a traffic assessment report signed by a registered Traffic Engineer report shall be submitted to the City. The report shall follow the criteria outlined by the City's Engineering Department.
19. One (1) recent (less than one-year old) aerial photograph of the entire Project Site with the boundary of the site delineated.
20. A minimum of three (3) ground-level panoramic photographs (color prints) clearly showing the whole project site. Include a location map identifying the position from which the photo was taken and the approximate area of coverage of each photograph.
21. Completed PROJECT FACILITY AVAILABILITY forms for:
 - A) FIRE
 - B) SEWER
 - C) WATERSee **Supplement A** at end of application.

These forms are linked above or may be found here:
<https://www.murrietaca.gov/departments/planning/apps.asp>
22. SAN 53 (Sewer & Water Availability) letter from the Riverside County Health Department (Required if not proposing to connect to a municipal sewer and/or water service).
23. In order to facilitate mailing of public hearing notices to affected properties a complete noticing package is required. The required radius is 300 feet from the exterior boundaries of the property for which the application is filed. The Director may require additional noticing if determined necessary or desirable or to comply with the "expanded notice" requirements of the Development Code. Please Note: Property owner noticing requirements may vary based on the location of the proposed project site.
 - a. An assessor's Parcel Map(s) illustrating the required radius as measured from the exterior boundaries of the subject site, Include all parcels within the radius and all those that touch the radius line. Preferred scale of the map is 1-200 feet, 300 feet, or 400 feet.
 - b. If more than one (1) Assessor's Parcel Map is required to show all of the affected parcels then an index map must be included. The index map must show the entire area affected on ONE SHEET. The required radius boundary line must be drawn on the map and be clearly visible (Preferably in red line). Index map(s) from the Riverside County Tax Assessor's Office may be used for this purpose.
 - c. Two (2) sets of gummed or adhesive labels with the name, address and assessor's parcel number for every parcel within the required radius. These labels must be based on the latest equalized tax roll from the Riverside County Tax Assessor's Office.
 - d. Include mailing labels for the property owner, applicant, and representative.

- e. A Signed certification letter from the person(s) preparing the list certifying that the information contained therein is accurate and is from the latest Riverside County Tax Assessor's Rolls. A sample "Public Noticing Certified Property Owner's List Affidavit" is included at the back of this application.

Information to prepare the above may be obtained from the Riverside County Tax Assessor's Office. Also, local Title Companies offer this service.

PRIOR TO SCHEDULING A PUBLIC HEARING:

1. Project Plans - Eight (8) copies of:
 - a. Tentative Map (full size 24" x 36")
 - b. Conceptual grading plan (full size 24" x 36")
 - c. Any other accompanying plans, if necessary

The exhibits shall also include the information described in the Subdivision Matrix. All exhibits must be folded no larger than 8 1/2" x 11."

2. 1 set of ALL plans reduced to 8 1/2" x 11" size.
3. Digital images of the aerial photograph, proposed map, the U.S.G.S. Map, and the panoramic photographs of the site in a format acceptable to the Planning Division (e.g. TIFF, GIF, JPEG, PDF).
4. Additional fees, if necessary. There shall be no outstanding fee balance prior to scheduling a hearing.

SUBDIVISION MATRIX

The following table lists the minimum information required on the site plan, grading plan, and landscape plan exhibits. IF ANY REQUIRED INFORMATION IS NOT APPLICABLE TO A SPECIFIC PROJECT, A SIGNED LETTER SHALL BE PROVIDED EXPLAINING WHY THE INFORMATION IS NOT NECESSARY. All exhibits must be clearly drawn and legible.

Note: Additional information may be required during review of the proposed Subdivision application, including information not specifically required by this checklist.

T T M	T P M	V T T M	V T P M	TTM = Tentative Tract Map TPM = Tentative Parcel Map VTM = Vesting Tentative Tract Map VPM = Vesting Tentative Parcel Map Reversion to Acreage – See the Tract Map Submittal Requirements. Revised Map – See the Tract Map or Parcel Map Submittal Requirements.
ALL PLANS:				
X	X	X	X	1. Name, Address, and telephone number of applicant.
X	X	X	X	2. Name, address, and telephone number of land owner.
X	X	X	X	3. Name, address, and telephone number, and license number of the Registered Civil Engineer or Surveyor who prepared the map.
X	X	X	X	4. Assessor's Parcel Numbers and, if available, address of the property.
X	X	X	X	5. Scale (number of feet per inch) of 1" = 20' or 1" = 40'. Use Engineer's Scale for all maps/exhibits. Architect's scale is only acceptable for floor plans, elevations, and landscape plans. A smaller scale may be used for purposes of providing a cover sheet showing the entire project boundaries on one sheet.
X	X	X	X	6. North Arrow
X	X	X	X	7. Date Map or Exhibit Prepared.
X	X	X	X	8. Map Number with letters and numerals not less than one-half inch in height, in bold face print.
X	X	X	X	9. Title of Map or Exhibit (i.e. Map No., "Vesting Tentative Map", etc.)
X	X	X	X	10. Map book and page numbers of adjoining recorded land divisions.
X	X	X	X	11. Complete legal description of property.
X	X	X	X	12. Overall dimensions and total net and gross acreage of property.
X	X	X	X	13. Vicinity map, showing site relationship to major highways and cities, and two access roads. (Proposed and existing paved roads will be indicated by heavy lines or noted as paved).
X	X	X	X	14. Exhibit revision block.
X	X	X	X	15. Land division boundary line.
X	X	X	X	16. Proposed lot information, including: lines and dimension of each parcel, finished pad elevation, gross & net square feet of each lot. Each lot shall be numbered with the highest number lot circled.
X	X	X	X	17. Numbered mobile home or recreational vehicle spaces, dwelling units, or lots, and the total number of each type of space, unit, or lot.
X	X	X	X	18. Location of adjoining property and lot lines.
X	X	X	X	19. A statement indicating that the tentative map includes the entire contiguous ownership of the land divider or only a portion thereof.

T T M	T P M	V T T M	V T P M	TTM = Tentative Tract Map TPM = Tentative Parcel Map VTM = Vesting Tentative Tract Map VPM = Vesting Tentative Parcel Map Reversion to Acreage – See the Tract Map Submittal Requirements. Revised Map – See the Tract Map or Parcel Map Submittal Requirements.
X	X	X	X	20. Existing zoning within a 100 foot radius of the subject property, including the subject property itself.
X	X	X	X	21. Existing use of property immediately surrounding subject property, including the subject property itself.
X	X	X	X	22. If project is within a Specific Plan, indicate the Specific Plan Planning Area number and the land use designation of subject property and all surrounding property.
X	X	X	X	23. If project is within a Community Services District landscape and lighting area, identify the district.
X	X	X	X	24. Names, addresses, and phone number of utility purveyors and school district(s), including providers of water, sewer, gas, electricity, telephone, and cable television.
X	X	X	X	25. Location, widths, and improvements of existing and proposed public utility easements, transmission lines, power and telephone poles, and underground utilities on or abutting the property.
X	X	X	X	26. Names, locations, right-of-way widths, and improvements of adjacent existing and proposed streets and the approximate grades of proposed and existing streets and approximate street centerline radii of curbs. If private streets are proposed, they shall be so noted on the tentative map.
X	X	X	X	27. List and accurately show all easements of record (by map or instrument number).
X	X	X	X	28. Typical Street improvement cross-section
X	X	X	X	29. Location, dimensions, setbacks, and nature of <u>proposed</u> and <u>existing</u> , fences, gates, walls, free standing signs, driveways, turnout and/or turnarounds and curbs, drainage structures, and above and below ground structures including septic subsurface sewage disposal system.
X	X	X	X	30. Location, dimensions, and cross section of existing and proposed ingress and egress, and methods of vehicular circulation.
X	X	X	X	31. Label and describe any land or rights-of-way to be dedicated to public or other uses.
X	X	X	X	32. All known existing wells and sewage disposal system (subsurface) on the property or within 200 feet of the property boundary.
X	X	X	X	33. Location and dimensions of existing dwellings, buildings or other structures, labeled as existing and indicating whether they are to remain or be removed.
X	X	X	X	34. Location, dimensions, and height of proposed dwellings, buildings, or other structures, labeled as proposed (if applicable).
X	X	X	X	35. Setback dimensions of proposed structures and paved areas.
X	X	X	X	36. Setback dimensions of existing structures and paved areas.

T T M	T P M	V T T M	V T P M	TTM = Tentative Tract Map TPM = Tentative Parcel Map VTM = Vesting Tentative Tract Map VPM = Vesting Tentative Parcel Map Reversion to Acreage – See the Tract Map Submittal Requirements. Revised Map – See the Tract Map or Parcel Map Submittal Requirements.
X	X	X	X	37. Existing topography of the property, with the source(s) of the contour lines identified. The contour lines shall extend 300 feet beyond the exterior boundaries of the subject property when adjacent property is unimproved or vacant. When adjacent property is improved or not vacant, contour lines shall extend beyond the exterior boundaries of the subject property a distance sufficient to determine compatibility with adjacent property. Maximum contour interval should be five feet. Flood Control District and Transportation Department base maps are acceptable sources of information. Topography from U.S.G.S. maps may be used only when more detailed information is not available. Additional topography map may be required if deemed necessary.
X		X		38. Preliminary grading including all cut/fill slopes to scale with slope ratios and slope setbacks from structures and property lines, the elevations of all individual building pads, the elevations at the perimeter of the subdivision, conceptual drainage facilities (including the location of terraces, terrace drainages, brow ditches, V-ditches, and lot to lot drainage facilities), existing topography and the relationship to adjoining land and development, and existing grading.
	X		X	39. Detailed grading plan to include all information required in item 38 for all existing and proposed roads, and for all proposed pad and driveway locations within “constrained” areas. Constrained areas include, but are not limited to, the following resources and hazards; Slopes in excess of 25%, biologically sensitive areas, archaeologically sensitive areas, flood hazard areas, ridgelines, hilltops, and geologically hazardous areas. Within constrained areas, proposed pad locations and driveways must be shown.
		X	X	40. Detailed grading plan to include all information required in item 38 plus a typical lot drainage design with a building envelope.
X	X	X	X	41. Show all slopes 3:1 or steeper.
X		X		42. Location, dimensions, setbacks, and nature of any proposed and all existing fences, gates, walls, free-standing signs, driveways, turnouts and/or turnarounds, curbs, drainage structures, and above and below ground structures, including specific subsurface disposal systems.
X	X	X	X	43. Spot elevations (proposed finished elevations) sufficient to demonstrate that streets, driveways, parking lots, and drainage grades meet minimum requirements. Spot elevations may be necessary at street intersections, ends, and cul-de-sacs; beginning and end of all driveways, parking lot outer limits, entrance and end points at all grade breaks.
X	X	X	X	44. When subsurface septic sewage disposal is intended, include and identify the primary sewage disposal system and its 100% expansion area, proposed cuts and/or fills in the areas of the sewage disposal systems, the elevation of the individual building pads such that there will be gravity feed to the sewage disposal system, and statement signed and with seal, as to the appropriateness of the grading plan with regard to the soils percolation engineer’s report. Said statement may be attached to the grading plan or placed upon a blue line copy of the grading plan.
X	X	X	X	45. Note whether or not land is subject to liquefaction or other geographic hazards.
X	X	X	X	46. Note whether or not land is subject to overflow, inundation, or flood hazards.

T T M	T P M	V T T M	V T P M	TTM = Tentative Tract Map TPM = Tentative Parcel Map VTM = Vesting Tentative Tract Map VPM = Vesting Tentative Parcel Map Reversion to Acreage – See the Tract Map Submittal Requirements. Revised Map – See the Tract Map or Parcel Map Submittal Requirements.
				47. If applicable, indicate the location of any seismic fault line(s) and the setbacks required between it and proposed structures.
X	X	X	X	48. FEMA mapped floodplains and floodways including zone designations.
X	X	X	X	49. Drainage plan showing how all on-site and off-site stormwater will be conveyed through the priority. The exhibit shall clearly label points of concentration where flows enter or exit the site and indicate the amount of runoff (cubic feet per second – CFS) and the tributary drainage area (acres) at these points. The drainage plan shall acknowledge offsite construction required to collect flows and to discharge them to an adequate outlet. The exhibit shall also clearly label all watercourses, channels, culverts, brow ditches, or other flood control facilities passing through the site and indicate whether they are proposed or existing. Additionally, all facilities shall be labeled with name, owner, maintenance entity, size, grades, and dimensions. All easements or rights of way shall be shown and their widths indicated. Where calculated flow rates or hydraulic capacities are supplied or where flood control facilities are proposed, the exhibit shall be signed and sealed by a registered civil engineer.
X	X	X	X	50. Show any mapped blue line watercourses and identify jurisdiction delineations of water course.
X	X	X	X	51. Centerline curve radii and typical selections of all open channels.
X	X	X	X	52. Labeled common areas, open space, and recreational areas with location, dimensions, acreage, and known proposed uses, and name of proposed owner(s) or entities who will maintain these areas.
		X	X	53. Lighting system, both street and outdoor.
X	X	X	X	54. To demonstrate compliance with the City's Water Quality Management Plan, water quality features or a note describing the site's water quality features shall be shown.
X	X	X	X	55. If the map is to be phased, show the proposed phases and their sequence of development.
X	X	X	X	56. Indicate the type and location of existing trees with a trunk diameter of 9.5 inches or greater. Oak trees of four (4) inches or greater in diameter shall in all cases be shown.
X	X	X	X	57. Indicate the location of all existing fire hydrants within 500 feet of the front property line.

Additional copies of this application may be obtained from the Planning Division's
Web Page at <https://www.murrietaca.gov/departments/planning/apps.asp>

ENVIRONMENTAL SETTING

Approximate Gross Acreage/Net Acreage: _____

General location (nearby or cross streets): North of _____, South of _____, East of _____, West of _____

Precisely describe the existing use and condition of the site: _____

Existing zoning of adjacent parcels: _____

Precisely describe existing uses adjacent to the site: _____

MSHCP Number (if applicable): _____

Two (2) copies of an MSHCP consistency analyses and appropriate focused surveys are required if the site is in an MSHCP cell.

Describe the plant cover found on the site, including the number and type of all trees: _____

NOTE: EXPLAIN ANY "YES" RESPONSES IN AN ATTACHMENT.

Is the site on filled land, slopes in excess of 10% or located in a canyon? If yes, a geological and/or soils investigation is to accompany this application. Yes No

Has the site been surveyed for historical, paleontological, or archaeological resources? If yes, a copy of the survey is to accompany this application. Yes No

Does the site contain any unique natural, ecological or scenic resources? Yes No

Do any drainage swales or channels border or cross the site? Yes No

Has a traffic study been prepared? If yes, a copy of the study is to accompany this application. Yes No

Is the site in a flood plain? Yes No
If "Yes", a copy of a drainage plan is to accompany this application.

Have any special studies or reports, such as a traffic study, biological report, archaeological report, geological or geotechnical reports, been prepared for the subject property? Yes No

If yes, indicate the type of report(s) and provide a copy: _____

RESIDENTIAL PROJECTS:

Number and type of dwelling units proposed: _____

Density of the proposed project (# of units per net acreage): _____

Type and size of households expected: _____

Will any multi-story units be located adjacent to a highway or freeway? _____

If yes, a noise study is to accompany this application.

COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL PROJECTS:

Indicate specific type of use proposed: _____

List the gross square footage by each type of use: _____

List the gross square footage and number of floors for each building: _____

Estimate employment by shift: _____

Identify any planned outdoor activities: _____

What percentage of the project site will be covered by: Paving _____ % Building _____ % Landscaping _____ %

ALL PROJECTS

The maximum height of structures _____

Describe the amount and type of off-street parking proposed _____

Describe how drainage will be accommodated _____

Identify any off-site construction (public or private) required to support this project _____

Preliminary grading plans estimate _____ cubic yards of cut and _____ yards of fill.

Will the proposal result in cut or fill slopes steeper than 2:1 or higher than 10 feet? Yes No

Does the project need to import or export dirt? Yes No

Import _____ Export _____ Neither _____

What is the anticipated source/destination of the import/export?

What is the anticipated route of travel for transport of the soil material?

How many anticipated truckloads? _____ Truck loads.

What is the square footage of usable pad area? (area excluding all slopes) _____ sq. ft.

Give time estimated dates for the following:

- A. Rough Grading _____
- B. Final Grading _____
- C. Start Construction _____
- D. Complete Construction _____
- E. Describe any Project Phasing _____

List all other permits or public agency approvals required of this project _____

NOTE: EXPLAIN ANY "YES" RESPONSES IN ATTACHMENTS:

DURING CONSTRUCTION, WILL THE PROJECT:

- A. Emit dust, ash, smoke, fumes or odors? Yes No
- B. Alter existing drainage patterns? Yes No
- C. Create a substantial demand for energy or water? Yes No
- D. Discharge water of poor quality? Yes No
- E. Increase noise levels on site or for adjoining areas? Yes No
- F. Generate abnormally large amounts of solid waste or litter? Yes No
- G. Use, produce, store, or dispose of potentially hazardous materials such as toxic or radioactive substances, flammables or explosives? Yes No
- H. Require unusually high demands for services such as police, fire, sewer, schools, water, public, recreation, etc.? Yes No
- I. Displace any residential occupants? Yes No

Is water service available at the project site?: Yes No

If "No", how far must the water line(s) be extended to provide service? (No. of feet/miles) _____

Is sewer service available at the project site?: Yes No

If "No", how far must the sewer line(s) be extended to provide service? (No. of feet/miles) _____

Is a reclaimed water service available at this site? Yes No

If "No", how far must reclaimed water line(s) be extended to provide service (# of feet) _____

WATER QUALITY MANAGEMENT PLAN (WQMP) INFORMATION

The San Diego Region Regional Water Quality Control Board has adopted Board Order R9-2010-0016 in compliance with the federal National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Clean Water Act requirement. This Board Order regulates the discharge of pollutants from the County's MS4, and requires the County to implement measures to mitigate the water quality impacts of new developments within its jurisdiction. In compliance with this Board Order, projects submitted within the City of Murrieta for discretionary approval are required to comply with the Water Quality Management Plan for Urban Runoff (WQMP). The WQMP addresses post-development water quality impacts from new development and redevelopment projects. The WQMP provides detailed guidelines and templates to assist the developer in completing the necessary studies. These documents are available on-line at: <http://www.murrieta.org/engineering/waterqualitynpdes.asp>

To comply with the WQMP, a developer may be required to submit a "Project Specific" Final WQMP. This report is intended to, a) identify potential post-project pollutants and hydrologic impacts associated with the development; b) identify proposed Low Impact Development (LID) mitigation measures and Best Management Practices –(BMP's) for identified impacts including site design, source control and treatment control post-development BMPs; and c) identify sustainable funding and maintenance mechanisms for the aforementioned BMPs. A template for this report is included as an appendix to the WQMP. Projects requiring Project Specific Final WQMPs will also need to include a PRELIMINARY Project Specific WQMP along with the application package. The format of the PRELIMINARY report is the same template of the Final report but would be at a much lesser level of detail. For example, points a, b & c above would be covered, rough calculations supporting sizing would be included, and footprint/locations for the BMPs would be identified on the tentative exhibit. Detailed drawings will not be required.

Note that retention is the 1st order of treatment and infiltration is Regional Boards preference of treatment. Projects must demonstrate how infiltration can or cannot be used. Typically, this involves conducting soils testing which includes infiltration and/or percolation testing. Testing must be in conformance to the standards set in the Riverside County Flood Control Design Handbook for Low Impact Development Best Management Practices. If infiltration is not feasible, a project must then evaluate harvest and re-use.

CHECKLIST FOR IDENTIFYING PROJECTS REQUIRING A PROJECT-SPECIFIC WQMP WITHIN THE SANTA MARGARITA REGION

Applicant Name: _____ Phone #: _____

Project Location: _____

Case #: _____ Tract #: _____ - APN: _____

Does the proposed project incorporate any of the following items?

YES **NO**

1	<p>Modification to Existing Development (Significant Redevelopment) - this category includes the addition, creation or replacement of 5,000 sq. ft. or more of impervious surface on an already developed site. This category includes:</p> <p>(a) The expansion of a building footprint or addition or replacement of a structure;</p> <p>(b) Replacement of impervious surface that is not part of routine maintenance activities; and</p> <p>Note: Where modification to existing development results in an increase of less than 50% of the impervious surface of a previously existing development, and the existing development was not subject to WQMP requirements, WQMP requirements shall apply only to the addition, and not to the entire development. Otherwise the entire development must be treated.</p>		
2	<p>New Development - that creates 10,000 sf or more of impervious surfaces (collectively over the entire site) including commercial, residential, and public projects, on public and private lands.</p>		
3	<p>Automotive Repair Shops - as a facility that is categorized in any one of the SIC codes: 5013, 5014, 5541, 7532-7534, or 7536-7539</p>		
4	<p>One Acre Threshold - post-construction pollutant-generating new Development Projects that result in the disturbance of one acre or more of land by July 1, 2012.</p>		
5	<p>Restaurants - this category includes all eating and drinking establishments where the land area for development is greater than 5,000 sq. ft.</p> <p>Note: Restaurants with land area less than 5,000 sq. ft. shall meet modified WQMP requirements except for structural treatment BMP and peak flow criteria.</p>		
6	<p>Hillside development - this category includes any developments that create more than 5,000 sq. ft. of impervious surface located in an area with known erosive soil conditions, and where the project will require grading on natural slopes of 25% or greater.</p>		
7	<p>Environmentally sensitive areas (ESAs) - this category includes all development located within or directly adjacent to or discharging directly to an ESA which either creates 2,500 sq. ft. of impervious surface or increases 10% or more of its naturally occurring condition.</p> <p>Note: "Directly adjacent" means situated within 200 feet of the ESA. "Discharging directly to" means outflow from a drainage conveyance system that is composed entirely of flows from the subject development or redevelopment site, and not commingled with flows from adjacent lands.</p>		
8	<p>Parking lots - this category includes projects that create 5,000 sq. ft. of impervious surface for temporary parking or storage of motor vehicles. This category includes parking lots associated with any of the developments listed above.</p>		
9	<p>Streets, roads, highways & freeways - this category includes projects that create 5,000 sq. ft. or more of impervious surface for transportation of motor vehicles.</p>		
10	<p>Retail gasoline outlets (RGOs) - this category applies if either the RGO is 5,000 sq. ft or more or with a projected average daily traffic (ADT) of 100 or more vehicles per day.</p>		

A project-specific WQMP is required if the answer to any of the above questions is "YES."

WQMP Template can be found at <http://www.murrieta.org/Public Works/Water Quality>

SUMMARY OF PROJECT-SPECIFIC WATER QUALITY MANAGEMENT PLAN (WQMP) REQUIREMENTS

**Public Works Department

HAZARDOUS WASTE SITE DISCLOSURE STATEMENT

Government Code Section 65962.5 requires the applicant for any development project to consult specified state-prepared lists of hazardous waste sites and submit a signed statement to the local agency indicating whether the project is located on or near an identified site. Under the statute, no application shall be accepted as complete without the signed statement.

To search the hazardous waste list go to www.geotracker.swrcb.ca.gov.

I (we) certify that I (we) have investigated our project with respect to its location on or near an identified hazardous waste site and that my (our) answers are true and correct to the best of my (our) knowledge. My (our) investigation has shown that:

- The project is not located on or near an identified hazardous waste site.
- The project is located on or near an identified hazardous waste site.
Please list the location of the hazardous waste site(s) on an attached sheet.
