### INTRODUCTION

Online submittals save time, money, and reduce errors, when formatted correctly. Your project must comply with our digital submittal requirements. Submissions that do not comply with these requirements will be rejected and/or delayed.

### PLAN FILE REQUIREMENTS

- ❑ **Font Types:** Arial is the preferred font. TrueType fonts are required. No decorative fonts will be accepted.
- ❑ **File Encryption:** Files cannot be password protected, locked, or encrypted.
- ❑ **File Scanning:** Plan files should not be scanned. Condition of Approval documents may be scanned and inserted into the documents.
- ❑ **Plan Orientation:** All pages must be properly oriented. Plans must be in landscape view, and oriented so that pages read upright. If any pages are upside down or sideways, the entire submission will be returned.

- ❑ **File Numbers:** Page numbering must be positioned in the lower right-hand corner of the sheet.
- ❑ **File Content:** Files should be flattened and/or optimized PDFs:
  - Flatten drawing layers when creating PDFs from CAD
  - Flatten files after-the-fact by using the “Save As/Flatten” option
  - Optimize PDFs using the “Optimize PDF” option within a PDF editor
  - After saving files to a PDF format, make sure that no comments or other editable content are available
- ❑ **Plan Sets:** Plans shall be submitted as one file. Supplemental documentation (engineering/structural calculations, geotechnical reports, etc.) may be submitted as a separate file.
- ❑ **Title Blocks:** Sheet title blocks shall remain consistent on each page of the plan sets, including sub disciplines.
- ❑ **Stamp Location:** Reserve a 3-inch by 2-inch space for City stamps in the lower right-hand corner (above the page number)
